Professional Summary

Results-driven Java Developer and B.Tech (CS) graduate with hands-on experience building full-stack web and desktop applications. Delivered a freelance Employee Management System using Java, JDBC, and MySQL. Proficient in Spring Boot, REST APIs, and responsive frontend technologies. Strong foundation in Data Structures, Algorithms, and OOP principles. Seeking entry-level opportunities to build scalable enterprise solutions.

Technical Skills

Languages: Java, JavaScript, SQL

Databases: MySQL (Design, Normalization, CRUD)

Backend: Spring Boot, JDBC, REST APIs, JavaFX **Core Concepts:** OOP, DSA, DBMS, MVC, Design Patterns

Frontend: HTML5, CSS3, React JS, Bootstrap

Tools: Git, GitHub, IntelliJ, VS Code, Maven, Linux, Render, Supabase, Vercel

Professional Experience

Freelance Java Developer

Self-Employed

2025 – Present

Mumbai, India

- Built a full-stack **Employee Management System** for a client with CRUD operations, attendance tracking, and role-based access control using **Java, JDBC, and MySQL**.
- Developed responsive frontend with **HTML5, CSS3, and JavaScript** featuring dynamic form validation and interactive dashboards for managing **100+ employee profiles**.
- Handled complete project lifecycle independently — requirement gathering, database schema design, development, testing, and client deployment.

Key Projects

Hotel Booking & Management System | *HTML, CSS, JS, MySQL, JDBC*

Aug 2024 – Oct 2024

- Engineered a full-stack booking platform with **real-time room availability** tracking, **payment gateway** integration, and normalized MySQL schema (**5+ tables**) with transaction-safe JDBC queries.
- Built intuitive web interface with search/filter functionality enabling seamless room browsing, hotel comparison, and reservation management.

Pushp CI -Task Manager | Node.js, Express.js, HTML/CSS/JS, Supabase, Vercel, Render

taskflow.pushpci.com

- Built a full-stack Task Management Web App for a construction company with Role-Based Access Control (Admin, Employee, Guest) and real-time analytics dashboards.
- Implemented Field Job Tracking, Auto-Escalation Matrix, and multi-channel notifications (WhatsApp, SMS, Email, Browser) via Make.com/Zapier webhooks.
- Developed Attendance Tracking (auto login/logout), Group Chat, Direct Messaging, Jitsi Meet video call integration, and Analytics with PDF/Excel export.

Education

B.Tech in Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University, Prayagraj

Intermediate – PCM (Mathematics & Science)

U.P. Board of High School & Intermediate Education, Prayagraj

2021 – 2025

CGPA: 6.8 / 10

2019 – 2020

Certifications

- **Java Programming** — Great Learning
- **Cybersecurity Job Simulation** — Forage (Tata Group)
- **Front-End Development** — Great Learning
- **30-Day DSA Bootcamp** — Unstop

Leadership & Activities

Led the organizing committee for annual college tech fest — coordinated **5+ events**, managed **10+ volunteers**.

Mentored **15+ junior students** on Java fundamentals, DSA problem-solving, and career guidance in CS.

Organized college trips and cultural events — handled **budgeting, vendor coordination**, and end-to-end execution.
